**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Harriet M. Strimpel on May 30, 2006.

The application has been amended as follows:

Cancel claims 7-9.

The following is an examiner's statement of reasons for allowance:

After careful consideration of applicants' remarks, it was decided that the instant claims are allowable. Claim 1 is drawn to an "[isolated DNA coding for the CstMI restriction enzyme". Although the cited reference teaches the DNA within a very large plasmid, there is nothing taught concerning the function of the DNA and therefore an isolated DNA only encoding the restriction enzyme should not be rejected over the cited reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles L. Patterson, Jr., PhD, whose telephone number is 571-272-0936. The examiner can normally be reached on Monday - Friday from 7:30 to 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ponnathapura Achutamurthy, can be reached on 571-272-0928. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
